

Close Print Quotes Faster— Directly in PrintVis with Docubee

Get legally binding eSignatures with real-time tracking on your critical printing documents with the new PrintVis Docubee integration, powered by Microsoft AppSource.

Why This Integration Matters

Printing businesses handle multiple quotes, order confirmations, and approvals daily. By embedding Docubee's eSignature and automation tools right into PrintVis, you can:

-  **Accelerate Turnaround Times**
Quickly send and sign quotes using secure eSignatures with audit trails.
-  **Simplify Document Creation**
Collect client info with easy-to-use digital forms and generate documents using this data.
-  **Stop Juggling PDF Attachments**
Track and access each document's status directly in PrintVis.
-  **Offer a Professional Client Experience**
Let customers sign from anywhere on any device—no extra logins or software.
-  **Minimize Errors & Manual Effort**
Auto-fill critical job info, auto-route documents, and get reminders on upcoming expirations & renewals.

How It Works
