

Modern eSignature & Document Generation for Home Healthcare & Senior Living

Docubee streamlines documentation across every touchpoint in your senior care organization – from intake forms and caregiver onboarding to compliance and audit readiness. Focus on delivering exceptional care while Docubee eliminates paperwork bottlenecks behind the scenes.

Built for Scale, Compliance, & Simplicity

eSignature

HIPAA-compliant digital signing—accessible on any device by staff, clients, and family members.

Document Generation

Create branded, reusable templates for onboarding packets, service agreements, and care plans—no rework required.

Workflow Automation

Automatically route documents, trigger reminders, and assign approvals based on roles, document type, or location.

Secure Repository

Store all forms and records in a centralized, searchable archive with audit trails and access controls.

Compliance & Audit Trails

Stay inspection-ready with real-time logs of every form interaction and automated safeguards for HIPAA, SOC 2 Type II, and CCPA.

Designed for Every Senior Care Model

At-Home Care

Empower clients to complete digital intake forms and scheduling requests remotely. Share documents with authorized family members to keep everyone informed.

In-Home Clinical Care

Support skilled nursing, therapy, and medication management with secure, mobile-accessible care documentation.

Senior Living Communities

Digitize resident admissions, assessments, and regulatory documentation—ensuring consistency across locations and simplifying audits.

Key Benefits for Operators

Streamlined Administration

Consolidate document workflows into a single dashboard, freeing up staff to focus on resident care.

Faster, More Reliable Onboarding

Automate caregiver hiring paperwork—reducing onboarding time and ensuring credentialing compliance.

Enterprise-Level Oversight

Gain real-time visibility into performance metrics like turnaround times, document status, and compliance trends.

Improved Patient & Family Experience

Mobile-friendly forms and automated updates reduce confusion and improve transparency.

Scalable Across Locations

Standardize core processes while maintaining flexibility for local regulatory needs.

White-Glove Support

Our expert team understands senior care operations and is on hand to support implementation, training, and long-term optimization.

Focus on Care, Not Paperwork
